

Comprehension Bookmarks

Print these for your students. I have included two copies- one you can print in color and laminate for your students, and one in black and white... In my classroom, I plan to print the color bookmarks on cardstock, laminate, cut, and add a tassel to the top.

Run copies back to back and cut down the middle. The circle at the top is so you can add a tassel or ribbon for your students.

Good Readers

use many skills & strategies to help them understand & remember the text they're reading.

Cause & Effect

Good readers understand **how things happen** by looking at the **cause**. Good readers understand **what happens** by thinking about the **effect**.

Compare & Contrast

Good readers think about how characters, settings, and events in a text are alike and different.

Finding What's Important

Good readers can find what's important in a text. They ask: What is the **main idea** that the author is trying to tell you? What are the **details** that support the main idea?

Inferring

Good readers use **what they already know** **plus** **what they read** to make logical decisions about what an author means in a text.

Making Connections

Good readers make connections to **themselves**, **other texts**, and the **world** to help themselves understand what they're reading.

Good Readers

Making Connections

Good readers make connections to **themselves**, **other texts**, and the **world** to help themselves understand what they're reading.

Questioning

Good readers ask **questions** **before**, **during**, and **after** reading!

Predicting

Good readers think about **what might happen** **before** and **during** a text they read. Good readers **check their predictions** while they read.

Repairing

Good readers have strategies to use when a text doesn't make sense:

****Re-read** the sentence******

****Look at the pictures****

****Mark the page and ask for help****

Story Elements

Good readers can identify **story elements**:

****Setting****

****Characters****

****Beginning/Middle/End****

****Problem/Solution****

Summarizing

Good readers can **retell** about the text they've read. You can retell by following:

"Somebody-wanted-but-so."

Visualizing

Good readers **get pictures** of what they're reading **in their minds**. Good readers make sure their pictures **make sense** with what they're reading.

Questioning

Good readers ask **questions** **before**, **during**, and **after** reading!

Predicting
