

# Page Puzzles

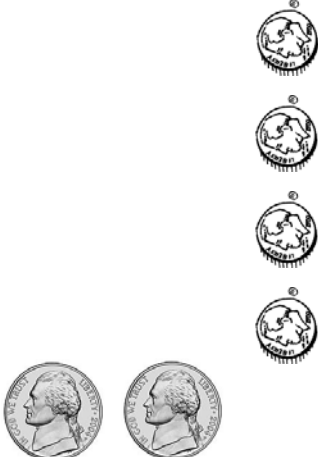

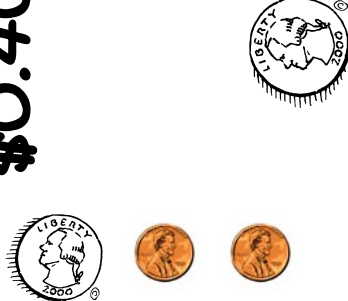

1. Print and copy.
2. Cut apart the squares... you may want to laminate for durability.
3. Place each puzzle page in a separate envelope for students to complete for centers or down time activities.
4. You can also use for group competitions after a unit or just for fun! Give a copy to each group... they begin on your mark. The first team to finish, wins... but each team must finish too!
5. I put a blank page puzzle at the bottom, so you can print it off and write in your own terms and concepts!
